

FoilPro® Operating Instructions

The New Premium FoilPro® was designed to provide a simple way to inflate multi-compartment foils and Air-Walkers, using our hands-free foot-pedal and special flex hose to allow hands-free air inflation. Also the special FoilPro® motor was designed to not over-inflate the foils and to not damage the self-sealing valves - Guaranteed!

OPERATING INSTRUCTIONS

1. Firmly attach the flex hose to the FoilPro® inflator nozzle, and attach the end of the foot pedal's flexible black tubing to the male fitting on the lower side of the FoilPro®. Your FoilPro® is now ready to inflate.
2. Plug your FoilPro® Inflator into wall socket and position machine on a flat, level, dry surface.
3. There are three special Reducer Nozzles included with the FoilPro® as follows:
 - For all foil balloons use the reducer marked – **For Foil Inflation**
 - For all Orbz™ and Bubbles™, use the reducer marked – **For High Pressure Inflation**
 - For all latex balloons, use the reducer marked – **For Latex Inflation**
4. It is important to use the special reducer nozzles for each different balloon type to properly inflate each balloon type without damage.
5. Once you have the correct reducer nozzle, you can either use the hands-free foot pedal, which is recommended, or you can use the On/Off rocker switch. Your FoilPro® will run cooler using the hands-free foot pedal.

SAFETY INSTRUCTIONS

1. **Warning** – To prevent fire or shock. **Do Not** expose unit to water or moisture.
2. **Warning** - **Do Not** place hands, face, or any objects other than the intended Reducer Nozzle or balloon over the inflation nozzle air discharge hole.
3. **Warning** – **Do Not** obstruct the inflation nozzle in any way or the air intake and discharge vents located on the side of the FoilPro® and on the bottom of the FoilPro®.
4. To reduce risk of electric shock unplug inflator before any external cleaning.
5. **Do Not** operate unit with damaged cord or plug. If power cord is damaged, it should only be replaced by authorized service personnel.
6. Make sure cord is situated so that it will not be stepped on, tripped over, or subject to damage or stress.
7. Operate your FoilPro® Inflator only on a flat, level, dry surface.

**Premium Balloon Accessories® (PBA)
FoilPro® Registration Information**

- **Protect your product:** PBA will keep the serial number, date of purchase, for your FoilPro® and the PBA Distributor where you purchased your FoilPro® on file for you to refer to this information if necessary.
- **Register at www.premiumballoon.com:** PBA makes registering your new FoilPro® simple and easy. Also, check out the other great innovations PBA has to offer. If you do not have internet access, please fill out the pre-addressed, enclosed registration card and mail it back to PBA.

**Premium Balloon Accessories® (PBA)
One (1) Year Conditional Warranty
(Subject to proper, intended use)**

This product, manufactured by Premium Balloon Accessories® (PBA), is warranted against defects in material and workmanship for one year following the date of purchase if operated in accordance with PBA's printed recommendations and instructions. This warranty does not cover any defects or damages caused by service or repair performed by unauthorized personnel.

PBA SHALL NOT IN ANY EVENT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, WHETHER FOR BREACH OF WARRANTY OR ANY OTHER REASON.

If this product is defective in any way during the applicable warranty period, visit www.premiumballoon.com and double click the [Inflator Warranty Option](#) and view PBA's trouble shooting tips. If this, however, does not resolve the problem, please contact Premium directly and provide the following required information:

- **Date of Purchase**
- **Name of PBA Distributor where product was purchased**
- **FoilPro® Inflator model and serial number**
- **Exact details of product problem**

Once we receive the information above, you can arrange to send the unit back – freight paid – and we will repair the unit and send it back to you by prepaid freight.
